No Win Scenario: - Basic Guide

Formation

4 players: Flanking players.

North, South, East and West ~14.1km from transport.

Each player takes out their assigned flank from behind (or side), prepares for next level and/or heal the transport.

*** North player takes out South-West flank during level 5 after taking out North platform.**

5th player: Floater.

Pushes dreadnaught to safe distance with tractor beam repulsors then kill it when team is ready.

*** Take out South-East flank during level 5 before saving dreadnaught on East flank.**

*** During levels 7 and 9, save a single non-dreadnaught ship (recommend West flank)**

*** Assist North then East or East then North flanks in level 10 (added firepower against the Dreadnaughts).**

*** Cover any flank that falls until flanker respawns (unless someone else can render aid).**
